
title: Jawan Investments — User Manual author: Jawan Investments Family Office Platform date: July 2026 version: 3.0

Jawan Investments — User Manual

Family Office Platform · Version 3.0 · July 2026

This manual explains how to use the Jawan Investments family office platform: portfolio tracking, cash and banking, real estate, governance, family & succession, reporting, and administration. What you see in the sidebar depends on your **role**, **entity access**, and **module permissions**.

Table of Contents

Getting started

1. [Signing In & Navigation](#)
2. [Roles & Permissions](#)
3. [Entities & Common Actions](#)

Home & planning

4. [Dashboard](#)
5. [Assistant](#)
6. [Calendar](#)

Portfolio

7. [Assets \(Portfolio Registry\)](#)
8. [Public Markets](#)
9. [PE / VC Portfolio](#)
10. [Fund LP Investments](#)
11. [Exits](#)
12. [Lands](#)
13. [Real Estate](#)
14. [Cars](#)
15. [Companies](#)

16. [Precious Metals](#)

Finance & operations

17. [Cash Management](#)

18. [Bank Details](#)

19. [Transfer Letters](#)

20. [Loans](#)

21. [Cheques](#)

22. [Expenses](#)

Governance & people

23. [Investment Proposals](#)

24. [Documents & Insurance](#)

25. [Family Members & Beneficiaries](#)

26. [Succession & Estate](#)

27. [Contacts](#)

Reporting & admin

28. [Reports](#)

29. [Admin: Users](#)

30. [Admin: Download Requests](#)

31. [Admin: Audit Log](#)

Reference

32. [Quick Reference by Task](#)

33. [Tips & Best Practices](#)

1. Signing In & Navigation

Signing in

1. Open the platform URL in your browser.
2. If you are not signed in, you are redirected to **Sign In**.
3. Sign in with the email your administrator invited.
4. After sign-in, you land on the **Dashboard**.

Invite-only access. New users need a pending invitation from a Super Admin. Without an invite you are redirected to **Invite Required**. Deactivated accounts cannot sign in.

Session timeout. The platform logs you out after **30 minutes of inactivity**. Sign in again to continue.

Navigation

- Use the **left sidebar** to open modules.
- The header shows the page title and your **user menu** (account settings).
- On smaller screens, use the **sidebar toggle**.
- Nested items (Real Estate, Documents, Family, Admin) expand to show sub-pages.

2. Roles & Permissions

Role	Typical access
Principal	Full access to all modules
Signatory	Read portfolio and operations; full Calendar; no Expenses, Family, Succession, or Admin
Finance	Full Loans, Cheques, Expenses, Insurance, Cash, Fund LP, Contacts, Real Estate; filtered Documents/Reports; read elsewhere
Director	Filtered by assigned entities; full Proposals; read Dashboard/Calendar; no Expenses, Family, Succession, or Admin
External	Documents only (shared categories)
Super Admin	Flag on a user — full access everywhere, plus Users, Download Requests, and Audit Log

Permission levels

Level	Meaning
FULL	View and edit
READ	View only
FILTERED	Scoped by entity and/or document category
SHARED_ONLY	Only documents shared with you
NONE	Module hidden

Super Admins can set **per-module overrides**, **entity access**, and **document category scopes** when inviting or editing a user.

3. Entities & Common Actions

Entities

Most records belong to an **Entity** (for example, *Jawan Investments*). Choose the entity from the dropdown or add one inline where available. Users with filtered access only see assigned entities.

Values across the platform commonly consolidate to **OMR** for net worth and board reporting.

Common actions

Action	How
Add / Register	Top-right button on list pages (write access required)
Edit	Pencil icon or Edit on the detail page
Delete	Trash icon → confirmation (cheques use soft delete)
Upload	File inputs on forms or upload panels on detail pages
Filter	Filter controls above lists and tables
Export	Report or module export buttons (XLSX / CSV / print)

Accepted file types (typical): PDF, JPG, PNG, WEBP, DOC, DOCX. Some modules also accept spreadsheets (XLSX / CSV).

4. Dashboard

Path: Sidebar → **Dashboard**

Your home view of family-office wealth and reminders.

Summary cards

Card	What it shows
Portfolio Value	Active and monitored assets (ownership-adjusted)
Net Worth	Portfolio minus active liabilities
Active Assets	Count of active holdings
Pending Reminders	Items needing attention across modules

Other panels

- **Performance** — valuation-based movement
 - **Asset & currency allocation** — charts by class and currency
 - **Exit analytics** — recent disposals and outcomes
 - **Net worth trend** — historical view
 - **Module shortcuts** — quick links with record counts
 - **Pending proposal approvals** — items awaiting your decision
 - **Reminders** — documents, vehicles, loans, cheques, expenses, insurance, family IDs, succession reviews
-

5. Assistant

Path: Sidebar → **Assistant**

A private AI assistant for Jawan Investments. Ask questions about portfolio data, holdings, cash, and related records you are permitted to see. Treat answers as decision support — always verify material figures in the source module or a report before acting.

6. Calendar

Path: Sidebar → **Calendar** · Tasks: **Calendar** → **Tasks** (/calendar/tasks)

Unified deadlines from across the platform, plus manual tasks.

Views

Today · Week · Month · List

What appears

- Document and insurance expiry dates
- Vehicle registration / insurance renewals
- Loan maturities and cheque due dates
- Expense due dates
- Family ID / passport renewals
- Succession review dates
- Manual tasks you create and assign

Create tasks from the calendar, assign owners, and manage them under **Calendar** → **Tasks**.
Reminder digests may also be sent by email when configured.

7. Assets (Portfolio Registry)

Path: Sidebar → **Assets**

Central registry for all asset classes. Dedicated modules (Public Markets, PE, Fund LP, Real Estate, Cash) roll values into this registry and the Dashboard.

Categories

Category	Typical use
Real Estate	Built property, developments
Private Equity	Direct PE/VC stakes
Public Equity	Listed markets and brokerage holdings
Fixed Asset	Vehicles and other fixed assets
Bonds	Fixed income, sukuk
Cash	Bank balances and liquidity
Precious Metals	Gold, silver, and related holdings
Other	Alternatives and custom structures

List filters

All · Active · Exited

Register or edit an asset

Required: Name, Category, Entity, Status, Currency

Optional: Acquisition date/cost, current value, description, manager name/email, ownership %

Statuses: Active · Monitor · Deferred · Exited (via exit workflow)

Record an exit (from an asset)

Field	Notes
Exit Type	Sale, Transfer, Liquidation, Write-off, Other
Exit Date	Required
Proceeds	Required for Sale / Liquidation
Buyer / Transferee	For Sale / Transfer
Record proceeds as cash inflow	Optional
Documents	Sale agreement, deed, closing statement

Note: Land-linked assets must be exited via **Lands** → **Record Property Sale**.

8. Public Markets

Path: Sidebar → **Public Markets**

Track listed equities, bonds, options, structured notes, and crypto across markets.

Markets

MSX · GCC (UAE, SA, KW, BH, QA) · USA · HK · China · India · UK · Other · All

What you can do

1. Open **Public Markets** and filter by entity, market, private vs managed portfolios, and management type.
2. Add holdings manually or import from broker / consolidated portfolio templates.
3. Download upload templates, then import spreadsheets.
4. Link **broker accounts** and **managed portfolios**.
5. Refresh prices (including crypto where supported).
6. Export holdings.

Position values roll into the **Public Equity** total on the Dashboard and in reports.

Best practice

- Keep one broker account / managed portfolio per mandate.
 - Use the provided templates for imports to avoid duplicate rows.
 - Refresh prices after material market moves or before board packs.
-

9. PE / VC Portfolio

Path: Sidebar → **PE / VC Portfolio**

Direct private equity and venture holdings.

List & summary

Summary cards show invested capital, fair value, and portfolio **MOIC / IRR**. Filter by entity. Add companies from **New**.

Company hub tabs

Tab	Purpose
Overview	Thesis, stage, status, key metrics
Investments	Cost basis and round history
Cap Table	Ownership and share classes
Valuations	Fair value marks over time
Distributions	Cash returned
Exit	Exit planning and outcomes
Contacts	Founders, GPs, IR
Governance	Board / observer notes
Monitoring	Reports and KPIs
Documents	Deal docs and packs

A linked **Assets** record is maintained for portfolio roll-up. You can also register operating companies under **Companies** when corporate registry detail is the primary need.

10. Fund LP Investments

Path: Sidebar → **Fund LP Investments**

Limited-partner commitments to buyout, venture, growth, and similar funds.

What you can do

1. Add a fund commitment (vintage, GP, strategy, commitment amount, currency, entity).
2. Log **capital calls** and **distributions**.

3. Enter periodic **NAV updates**.
4. Store fund documents (LPA, subscription, reports).

Detail tabs

Overview · Capital Calls · Distributions · NAV Updates · Fund Details · Documents

Key metrics

Paid-in · NAV · Unfunded · **DPI / RVPI / TVPI · IRR**

11. Exits

Path: Sidebar → **Exits**

Cross-module view of realized exits from assets, PE, and real estate. Use it to review proceeds, buyers, dates, and documents after disposals have been recorded in their source modules.

12. Lands

Path: Sidebar → **Lands**

Land parcels in Oman and internationally. Creates a linked portfolio asset automatically.

Register land

Oman — required: Land name, Governorate, Wilayat, Entity

International — required: Land name, Country, City, Entity

Optional: Village, Krooki / Mulkia / plot refs, land use, area (m²), GPS, registered holders, valuation, documents (Krooki, Mulkia, Other)

Record a property sale

Required: Sold To, Sale Date, Sale Amount

Optional currency, notes, and sale documents (SPA, POA, buyer ID). Completing a sale marks the land and linked asset as **Exited**.

Delete

Permanent — removes the parcel, documents, and linked asset.

13. Real Estate

Paths:

- **Investment Portfolio** → /real-estate
- **Private Real Estate** → /real-estate/private
- **Rent Dashboard** → /real-estate/rent

A. Investment Portfolio

Buildings and units held as investments.

Property tabs: Overview · Units · Rent · Leases · Maintenance · Utilities · Financials · Documents

Use the rent dashboard for collection status, occupancy, and PDCs linked to units and leases.

B. Private Real Estate (family villas)

Family-use properties with running costs and staff.

Tabs: Overview · Physical · Running Costs · Staff · Financials · Documents · Succession

C. Mortgages

Register property-backed debt in **Loans** and link the underlying asset as collateral.

14. Cars

Path: Sidebar → **Cars**

Oman vehicle registry (Mulkiya). Creates a linked **Fixed Asset** automatically.

Required: Name, plate number, governorate, wilayat, entity, make, model

Key optional fields: Registration / insurance expiry (feed Dashboard and Calendar reminders), Mulkiya documents, valuation

Exit: Record Exit on the vehicle detail page.

15. Companies

Path: Sidebar → **Companies**

Corporate registry for portfolio and operating companies. Creates a linked Private Equity asset when appropriate.

Required: Company name, registration number, entity

Optional: Owners (name, ownership %, email, phone), CEO, management contacts, registration expiry, corporate documents

16. Precious Metals

Path: Sidebar → **Assets** (category **Precious Metals**)

Gold, silver, and similar holdings. Units may include gram, tola, kilogram, and ounce. Price basis can use OMR buy/sell or USD spot. Use **Refresh prices** on the Assets list or detail page when available.

17. Cash Management

Path: Sidebar → **Cash Management**

Operational cash positions (distinct from the Bank Details registry).

What you can do

1. Add cash-position accounts (bank, entity, currency, balance).
2. View summaries by bank, entity, and currency.
3. Upload PDF bank statements to extract closing balances.
4. Review import history and **stale balances** (30+ days without update).
5. See FX conversion toward OMR consolidation.

Tip: Keep reference account numbers and SWIFT/IBAN in **Bank Details**. Use **Cash Management** for balances that feed net worth and cash reports.

18. Bank Details

Path: Sidebar → **Bank Details**

Registry of family-office bank accounts used for cheques, transfer letters, and reference data.

Field	Required?
Account name	Yes
Bank name	Yes
Account number	Yes
Currency	Yes
IBAN, SWIFT, sort code	No
Entity	No
Notes	No

USA and other regional account variants are supported where configured. The detail page shows linked cheques and related activity.

19. Transfer Letters

Path: Sidebar → **Transfer Letters**

Generate and track wire / transfer instruction letters.

Types

Local · International · UK · US

Workflow

1. Create a new letter and choose the transfer type.
2. Select source and beneficiary banks from **Bank Details**.
3. Enter amount (amount-in-words is generated), purpose, and correspondent bank details when required.
4. Preview / print the letter.
5. Track status: **Pending** ↔ **Complete**.
6. Serial numbers are assigned for auditability.

20. Loans

Path: Sidebar → **Loans**

Register borrowings and track outstanding principal and interest.

Required: Loan name, entity, principal amount

Optional: Type, lender, rate, payment frequency, maturity, collateral asset link, lender contact, documents

Record a payment

Required: Payment date, amount, payment method

Optional: Principal / interest split, reference, receipt files

Active loans reduce **net worth** on the Dashboard.

21. Cheques

Path: Sidebar → **Cheques**

Track issued and received cheques.

Required: Cheque number, entity, amount, issue date, payee (for issued cheques)

Statuses: Pending · Deposited · Cleared · Bounced · Cancelled · Stopped

Summary cards highlight pending outgoing/incoming, due this week, and bounced items. Deletes are **soft deletes** (hidden from lists).

22. Expenses

Path: Sidebar → **Expenses**

Access: typically Principal and Finance (and Super Admin).

Required: Title, amount, expense type

Optional: Status (Paid / Pending / Overdue), due date, entity, recurring flag, attachments (invoice, payment slip, cheque copy)

Due and overdue expenses appear on the Dashboard and Calendar.

23. Investment Proposals

Path: Sidebar → **Proposals**

Governance workflow for new investments — from idea through approval.

Who can do what

Action	Who
View	Users with Proposals access
Create / edit / submit	Principal, Director, Super Admin (and others with write access)
Approve / reject / return	Assigned approvers
Delete	Submitter only, Draft status only

Lifecycle

Draft → Submit → Pending Approval → Approved

→ Rejected

→ Returned → edit → Resubmit → Pending

Create a proposal

Path: Proposals → **New Proposal**

Field	On submit
Investment name	Required
Suggested amount	Required
Brief about the investment	Required
Recommendation	Required
Entity / currency / website	Optional
Investment deck (PDF / PPT)	Required
Approvers	At least one; cannot select yourself

Save Draft keeps work in progress. **Submit for Approval** starts the review workflow.

Review (approvers)

Decision	Comment
Approve	Optional
Return with Comments	Required — sends back for revision
Reject	Required

Majority rule: Once more than half of assigned approvers approve → **Approved**. Same for rejections. A single **Return** sets status to **Returned**.

After approval

Register the investment in the correct portfolio module (PE, Fund LP, Public Markets, Real Estate, etc.) and store legal documents in the **Document Vault**.

Filters: All · Mine · Pending My Approval · Approved · Rejected

24. Documents & Insurance

Document Vault

Path: Sidebar → **Documents** → **Document Vault**

Field	Required?
File	Yes
Name	Yes
Category	Yes — KYC, Legal, Property, Corporate, Tax, Banking, Other
Expiry date	No
Entity	No

Statuses: Valid · Expiring Soon · Expired · Pending · Under Review

Restricted files may require a **download request** that Super Admins approve under Admin → Download Requests.

Insurance Register

Path: Sidebar → **Documents** → **Insurance Register**

Register policies: Property · Vehicle · Life · Health · Business · Other

Statuses: Active · Pending Renewal · Expired · Cancelled

Track premiums, frequency, and policy documents. Expiry dates feed **Calendar** and **Dashboard** reminders.

25. Family Members & Beneficiaries

Path: Sidebar → **Family** → **Members & Beneficiaries**

Family register for the office.

What you can track

- Relationships (Head of Family, Spouse, Son/Daughter, and other relations)
- KYC details and nationality
- IDs (Omani ID, passport, residence) with expiry dates
- Ownership stakes in entities / holdings
- Signatory roles
- Beneficiary designations
- Supporting documents

ID renewals appear on the Calendar and Dashboard when expiry dates are set.

26. Succession & Estate

Path: Sidebar → **Family** → **Succession & Estate**

Estate and succession plans (with on-screen disclaimer).

Plan statuses

Draft · In Progress · Review Due · Complete

Plan tabs

Tab	Purpose
Overview	Plan summary and status
Distribution	Beneficiaries mapped to assets, lands, companies, real estate, vehicles
Legal Documents	Will, trust, letter of wishes, POA, and related uploads
Executors & Trustees	Executor, trustee, guardian, POA agent appointments
Checklist	Progress toward completeness
Review Schedule	Next review dates (Calendar reminders)

27. Contacts

Path: Sidebar → **Contacts**

Central directory of external relationships.

Types: Banker · Lawyer · Fund Manager · Broker · Tenant · Contractor · Co-Investor · Government · Advisor · Other

Filter by entity or global contacts, follow-up due dates, and active status. Many modules also keep inline contact fields (managers, lenders, owners) — use the directory for people you reuse across records.

28. Reports

Path: Sidebar → **Reports**

Report library with entity and date filters. Export to **XLSX**, **CSV**, or **print / PDF**.

Featured: Monthly Board Pack

Executive scorecard covering net worth, allocation, valuation-based MTD/YTD performance, PE MOIC/IRR, LP DPI/RVPI/TVPI/IRR, and cash. Scheduled email delivery can run on the **1st of each month** for users with Reports access (when email is configured).

Report catalog (selected)

Category	Reports
Balance sheet	Net Worth Statement · Consolidated Net Worth (OMR) · Asset Register · Asset Allocation · Liability & Loan Schedule · Valuation History
Cash	Cash & Bank Balances · Cash Position · Bank Accounts
Portfolio	Public Equity Holdings · PE / VC Portfolio Summary · Fund LP Portfolio Summary · Portfolio Performance · Dividend & Distribution Income · Total Portfolio Income · Realized Exits · Exit Analytics
Operations	Cheque Register · Expense Summary · Investment Proposal Pipeline
Registers	Land Portfolio · Vehicle Fleet · Registered Companies · Document Expiry · Insurance Register · Family Register · Succession Plan Status · Contacts Directory
Real estate	Property Portfolio · Rental Income · Rent Collection Register · Active Lease Register · Property Expense Summary · Property Valuation History

29. Admin: Users

Path: Sidebar → **Admin** → **Users** · **Super Admin only**

Invite a user

1. Enter email and office **role**.
2. Optionally flag **Super Admin**.
3. Set module overrides, entity access, and document category scopes.
4. Send the invitation — the user completes sign-up via the invite link.

Manage users

Edit access, deactivate / reactivate, and cancel pending invitations.

30. Admin: Download Requests

Path: Sidebar → **Admin** → **Download Requests** · **Super Admin only**

Review and approve or deny requests to download restricted documents from the Document Vault.

31. Admin: Audit Log

Path: Sidebar → **Admin** → **Audit Log** · **Super Admin only**

Filterable event log of create / update / delete activity across modules for governance and troubleshooting.

32. Quick Reference by Task

I want to...	Go to...
See portfolio overview	Dashboard
Ask a question about holdings	Assistant
See upcoming deadlines	Calendar
Track listed stocks / ETFs / crypto	Public Markets
Track a PE / VC company	PE / VC Portfolio
Track a fund LP commitment	Fund LP Investments
Review realized exits	Exits
Register Oman land	Lands → Register Land
Sell a land parcel	Lands → Record Property Sale
Manage rental buildings	Real Estate → Investment Portfolio
Track a family villa	Real Estate → Private Real Estate
Register a vehicle	Cars
Register a company	Companies
Track gold / silver	Assets → Precious Metals
Update cash balances	Cash Management
Register bank account details	Bank Details
Prepare a wire letter	Transfer Letters
Track a loan	Loans
Issue or track cheques	Cheques
Pay invoices / track costs	Expenses
Submit an investment for approval	Proposals → New Proposal
Approve an investment	Proposals → Pending My Approval
Store a will or LPA	Documents → Document Vault (Legal)
Track insurance policies	Documents → Insurance Register
Register family members	Family → Members & Beneficiaries
Plan succession	Family → Succession & Estate

I want to...	Go to...
Find an adviser	Contacts
Run the board pack	Reports → Monthly Board Pack
Invite a colleague	Admin → Users

33. Tips & Best Practices

1. **Update values before board packs** — refresh Public Markets prices, PE valuations, Fund LP NAVs, and cash balances so Dashboard and Reports stay accurate.
 2. **Use the right module** — prefer dedicated modules (Public Markets, PE, Fund LP, Real Estate, Cash) over generic Assets when available; Assets remains the registry and roll-up layer.
 3. **Linked records** — Lands, Cars, and Companies create portfolio assets; exit them from the correct source module.
 4. **Bank Details vs Cash** — Bank Details holds account identity; Cash Management holds balances that feed net worth.
 5. **Proposals after approval** — always register the approved investment in the relevant portfolio module and file legal docs in the vault.
 6. **Expiry dates matter** — set them on documents, insurance, vehicles, family IDs, and succession reviews so Calendar and Dashboard reminders work.
 7. **Entity discipline** — assign the correct entity on every record so filtered users and consolidated reports stay correct.
 8. **Cheque deletes** — soft delete only; most other deletes are permanent.
 9. **Permissions** — if a module is missing from your sidebar, ask a Super Admin to adjust your role, overrides, or entity access.
 10. **Security** — the session ends after 30 minutes of inactivity; never share invite links or credentials.
-
